

Compatibility Table, Release 8.0.6

The table shows the firmware version for each 'Unit Type' sorted in 'Releases'
Each firmware version is marked with a colour code indicating the compatibility to the latest release.

Legend for compatibility colors: Green (Compatible), Yellow (Compatible, but upgrade advisable using FUU Utility), Red (Not Compatible, an upgrade is needed using FUU Utility), Black (Not Compatible, unit is not supported anymore), Grey (Not Supported). Also includes a grey box for 'CU/CCU firmware version in previous releases'.

Main data table with columns for Unit Type, Program, Releases (8.0.6 to 4.5.3), and Feature Lic. (Yes/No). Rows include various unit types like DIS-CCU, CU 5905, CM 60xxP, etc.
